

About

Welcome to Nexa Funds

NEXAFUNDS is a mining and smelting company headquartered in Luxembourg, founded in 2017. It operates in multiple countries, including Brazil, Peru, and Canada. The company's main activities revolve around the exploration, extraction, and processing of zinc, lead, and copper. Nexa Resources also offers various services related to mining and smelting operations. While it does not have any specific brands, it is known for its commitment to sustainable practices and responsible mining.

The president and CEO of the company is Ignacio Rosado

The company makes their profit from mining and smelting with the activities revolve around the exploration , extraction and processing of zinc, lead, and copper. they also have expertise that trade with our funds in crypto /forex market and they also have a rig machines that they use in Mining Bitcoin generate more profit and share dividend.

Founder Nexa Funds

Consulting company with strategy in business high growth

Nexafunds has **eight facilities** that harness the power of **Luxembourg diverse energy sources**

We are taking an innovative approach at our high-performance data centres – which run on hydro and nuclear power – to bridge between traditional and nascent high-performance computing infrastructure and capture growth in blockchain, AI, and Web 3.0.

Our digital asset mining centres mine efficiently using an abundance of renewable energy. We have industry leading power purchase agreements, and operate in climates with cold temperatures and high winds, which are optimal for mining.
